Improvements to Idaho Court Data Website Focus on Criminal Charge Information

The [Idaho Court Data](#) website now offers additional ways to filter information on criminal charges and infractions filed in local courts. Through the site, you can examine filing numbers by when or where a charge was filed, the offense involved and whether the charge led to a conviction, acquittal, dismissal or is still pending in the courts.

The site's dashboards on criminal charges and infraction charges are updated twice a year to include data for the most recent calendar and state fiscal years.

Other dashboards on the site cover criminal and civil case numbers and a range of financial information about Idaho's courts. The Court Data website first launched in 2020 and continues to evolve.

Learn more by accessing the site at courtdata.idaho.gov.
