

# Legal Foundation of Court Interpreting

The Idaho Supreme Court announces the *Legal Foundation of Court Interpreting* webinar. The webinar is scheduled for August 19, 2014 at 6:30 pm MST, and will be presented by Bruno Romero, Program Manager of the Interpreter Services Program from the Ohio Supreme Court.

The evolving nature of the court interpreting profession imposes in practitioners the responsibility of maintaining themselves abreast of changes in the field that result in reshaping their daily work. To assist them in this process, the program will examine legislation as well as caselaw relating to language access and how previous court's decisions have shaped the interpreting profession since early 1970 to date.
