*These figures are reflected in the "Added/Transfer" and "Assigned" columns of the individual appellate courts' caseload reports found on the two following pages.

**The difference between the "Total Unassigned Caseload" column and the "Current Unassigned Pending" column is due to the large number of cases that are dismissed prior to distribution.

NOTE: Newly filed appeals are classified as "unassigned" until they reach the "at-issue" stage. At this point, each appeal is either retained by the Supreme Court or assigned to the Court of Appeals. Until they are thus distributed, they are considered part of the overall appellate caseload, but are not counted as part of the caseload of either court. The charts included here summarize, by major case type, the caseload activities of all three elements: unassigned cases, Supreme Court cases, and Court of Appeals cases.
