

SUMMARY STATEMENT

State v. Knutson, Docket No. 40803-2013

The Idaho Supreme Court affirmed the judgment of the district court. This is an appeal out of Twin Falls County from a jury verdict finding the defendant guilty of four counts of sexual abuse of a vulnerable adult. The defendant contends that the term of the grand jury that indicted him had already expired, that the statute defining the crimes is unconstitutional, that there was insufficient evidence to support the jury's verdict, and that his conviction should be for only one count because his conduct constituted one continuous act. We affirm the judgment of the district court.
