

## **SUMMARY STATEMENT**

*Nampa Education Association v. Nampa School District No. 131*, Docket No. 41454-2013

The Idaho Supreme Court affirmed the judgment of the district court. This is an appeal out of Canyon County from a declaratory judgment holding that addenda to the teachers' employment contracts with Nampa School District No. 131 were illegal and unenforceable. The addenda provided that the teachers would voluntarily reduce their annual compensation by donating from one to four days of compensation to the School District. We affirm the judgment of the district court.
