

## **SUMMARY STATEMENT**

*State v. Green*, Docket No. 41736

The Supreme Court vacated the district court's order suppressing certain drug-related evidence obtained when Alesha Green was stopped in Ada County and arrested for driving without a valid driver's license. The district court had suppressed the evidence because Idaho Code section 49-301 is a misdemeanor that is not an arrestable offense under Idaho Code section 49-1407. The Supreme Court determined that the arrest, while in violation of Section 49-1407, was not in violation of the Idaho Constitution, and concluded that suppression of the evidence was inappropriate.
