

## **SUMMARY STATEMENT**

*State v. Rawlings*, Docket No. 42697-2014

The Idaho Supreme Court affirmed the judgment of the district court. This is an appeal out of Kootenai County challenging the burglary statute on the grounds of equal protection and freedom of speech and challenging the admission into evidence of the defendant's prior shoplifting from the same national retailer as evidence that the defendant intended to commit a theft when he entered the store. We affirm the judgment of the district court.
