

SUMMARY STATEMENT

State v. Passons, Docket No. 45455

This appeal arises from Russell Allen Passons's motion to correct an illegal sentence pursuant to Idaho Criminal Rule 35. The district court denied the motion on the basis of controlling precedent of the Court of Appeals. The Court of Appeals relied on that precedent to affirm the district court's decision. The Supreme Court granted Passons's petition for review, and now affirm the decision of the district court.
