

## **SUMMARY STATEMENT**

*State v. Christensen*, Docket No. 46371

The Idaho Supreme Court affirmed the district court's admission of the two victims' CARES interviews under Idaho Rule of Evidence 803(4). The Court held the district court did not abuse its discretion because statements made by the victims in the interviews, while having both a forensic and a medical purpose, were made for the purpose of medical diagnosis or treatment under Rule 803(4). Additionally, the Court held the district court did not abuse its discretion by admitting the interviews in their entirety.
