

2025 Idaho Courts Survey

2025 Idaho Courts Survey

Idaho's Judicial Branch is working on a prioritization plan for supporting the needs of its local courts over the next three years.

Through June 20, if you visit a county courthouse on court business you may be invited to fill out a brief survey about your experiences interacting with Idaho's state courts. You'll be asked for your insights and ideas on maintaining an accessible, fair court system that is responsive to the needs of our communities.

The information collected will be used to shape court priorities and improve court services. Responses will be kept anonymous.

Your voice is essential to the future of your courts! Please consider completing this survey if you have the chance. Thank you.
