

IDAHO VETERANS TREATMENT COURTS

What are Veterans Treatment Courts?

Veteran Treatment Courts (VTC) use the successful framework of problem-solving courts where local teams hold regular meetings and hearings to ensure offenders in the community are held accountable. These courts match judicial oversight, intensive treatment, and probation supervision; however, the focus for VTC is on ensuring that offenders that have served their country and have substance abuse and/or mental health problems receive treatment and support in the community rather than in a correctional facility.

Challenges and Opportunities

These courts face the challenge of engaging offenders with trauma and Post Traumatic Stress Disorders (PTSD), as well as the military culture that until recently, had not typically addressed mental health needs. In Idaho, local court teams work with the Veterans Administration and community providers to coordinate resources, services, and to take advantage of the supportive camaraderie of military experience. In FY 2015, 112 veterans were served in a Veterans Treatment Court.
